

Sanitary & Industrial Ram Add-ons

EnDiSys supplies specialty add-on options to both sanitary and industrial ram systems.

Mechanical Safety Stops

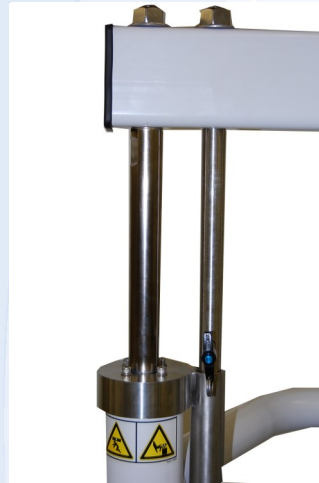

- Provides safety for operator when changing out drums and/or servicing equipment.
- 1" diameter rod is attached to top beam.
- Operator inserts pin to lock out the ram.

Low Level Control

- This option monitors the material level of the process tank.
- A height adjustable limit switch is installed on the side of the ram.
- When the switch is tripped an alarm will indicate low level and the ram will be enabled.
- Audio, visual or both types of alarms are available.

Portable Casters

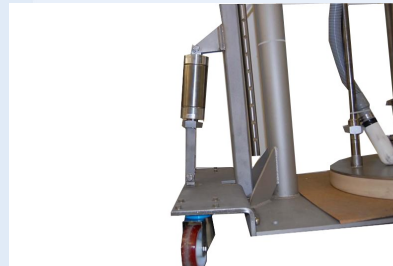

- Allows ram to be moved around the facility.
- Casters are installed on a pneumatic platform.
- Ram can be moved for wash down or when not in use.

Sanitary & Industrial Ram Add-ons

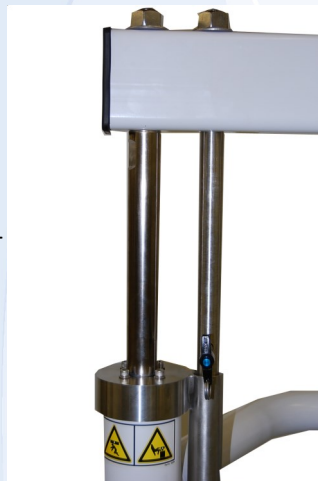

EnDiSys supplies specialty add-on options to both sanitary and industrial ram systems.

Lexan Safety Shield

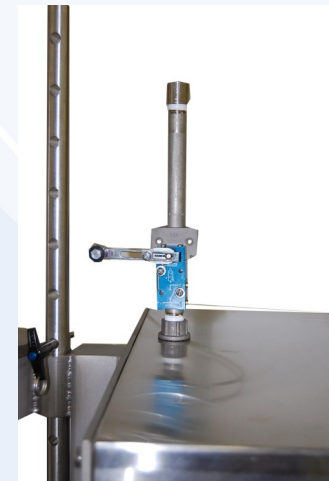

- Provides a viewable barrier between the operator control station and the process drum.
- The barrier is intended to prevent potential pinch points when moving the plate and pump in and out of the drum.

Pneumatic Control

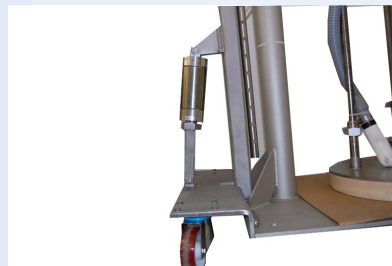

- All control equipment located in a stainless steel wash down enclosure.
- Gauges, regulators, and selector switches are panel mounted and centrally located.
- The control is mounted on the side of the ram.
